INFINITE@ Microsoft Azure

Microsoft Azure is a growing collection of integrated cloud services that developers and IT professionals use to build, deploy, and manage applications through our global network of datacenters. With Azure, you get the freedom to build and deploy wherever you want, using the tools, applications, and frameworks of your choice.

Our certified team can help you to migrate or deploy your IT services on the Microsoft Azure platform. We offer also 24/7 SLA for support and maintenance of the resources deployed in Azure.

INFINITE@ .NET

Microsoft's .NET framework is one of the key software development platforms in which Infinite Solutions has strong knowledge and experience.

We have been developing software on this platform since 2003 and have successfully developed custom solutions and application integration using a variety of different programming languages supported by .NET.

We also do development and integration of .NET solutions with Microsoft Dynamics 365.

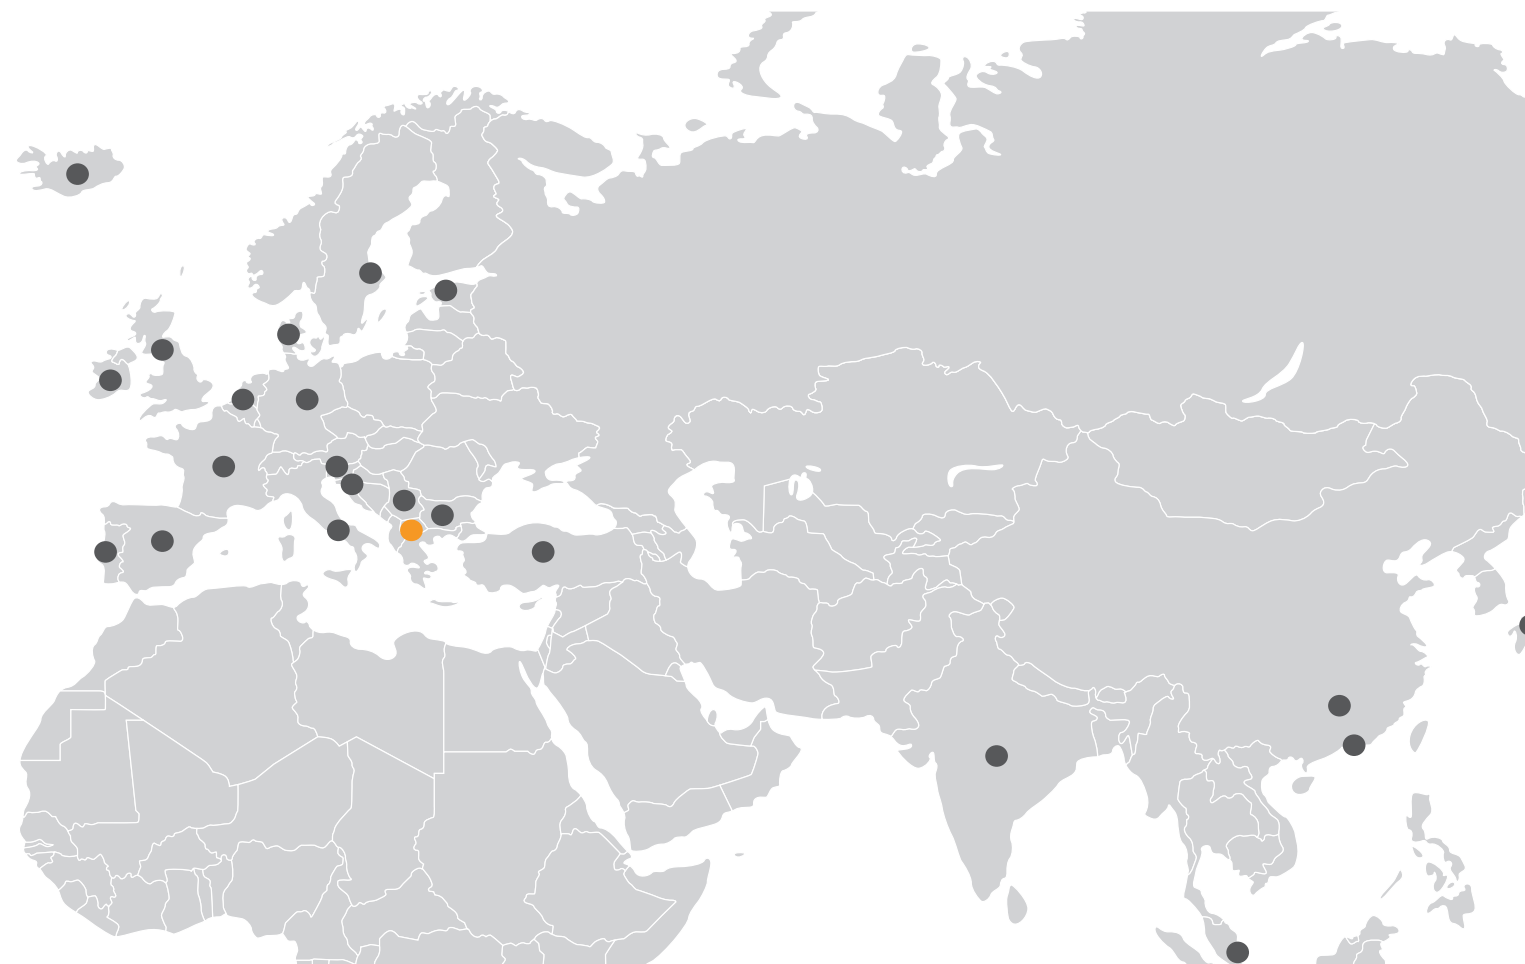

Customer support

Infinite Solutions provides customer support and services in order to find all the help you need.
